Analysis Report on Compound Fertilizer Demand in China

Beijing Orient Agribusiness Consultants Ltd.

December 2017
Background

Since the publication of “Report on Analysis of Fertilizer Demand in China 1998-2003” in November 2004, with our continuous research on China fertilizer market and analysis of crops production and fertilizer demand in China, we have been conducted systematic analysis and research of the demand changes for different fertilizers by various agricultural crops in different regions of China in the past decade and published this report series.

The whole report series is composed by four reports:

“Analysis Report of Nitrogen Fertilizer Demand in China”
“Analysis Report of Phosphate Fertilizer Demand in China”
“Analysis Report of Potash Fertilizer Demand in China”
“Analysis Report of Compound Fertilizer Demand in China”

The clients can purchase one or more based on demand.

The crops mentioned in the report series include main grain crops, vegetables, fruits, oil-bearing crops, sugar crops, tuber crops, fiber crops, and tobacco etc.

The main chemical fertilizer categories in the report series include: urea, ammonia bicarbonate (ABC), diammonium (DAP), single super phosphate (SSP), muriate of potash (MOP) and compound fertilizers (complex fertilizer and mixed fertilizer), nitrogen fertilizer, phosphate fertilizer and potash fertilizer.

The main contents and characteristics:

(1) Changes in per-unit-area application amount of different fertilizers in different areas for different crops

(2) Changes in demand for different fertilizers in different areas from different crops

(3) Changes in demand for different fertilizers in different areas
(4) Changes in fertilizer demand in different areas from different crops
(5) Distribution characteristics and changes in the production of key producers of different fertilizer categories
(6) Supply-demand characteristics and price changes of different fertilizer categories
(7) Supply-demand situation and price trend forecast of different fertilizer in China.
TABLE OF CONTENTS

Part One  Planted Areas of Major Crops in China, 2002-2016

1.1 Paddy
   1.1.1 Early Paddy
   1.1.2 Single Cropping Paddy
   1.1.3 Late Paddy

1.2 Wheat

1.3 Maize

1.4 Other Cereal
   1.4.1 Sorghum
   1.4.2 Foxtail Millet

1.5 Potato

1.6 Soybean

1.7 Peanut

1.8 Rapeseed

1.9 Cotton

1.10 Sugar Crops
   1.10.1 Sugar Cane
   1.10.2 Sugar Beet

1.11 Tobacco

1.12 Vegetables

1.13 Fruits

Part Two  Fertilizer Consumption by Crop in China, 2002-2016

2.1 Paddy
   2.1.1 Early Paddy
      2.1.1.1 Fertilizer Consumption per Unit Area
      2.1.1.2 Total Fertilizer Consumption
   2.1.2 Single Cropping Paddy
2.1.2.1 Fertilizer Consumption per Unit Area
2.1.2.2 Total Fertilizer Consumption

2.1.3 Late Paddy
2.1.3.1 Fertilizer Consumption per Unit Area
2.1.3.2 Total Fertilizer Consumption

2.2 Wheat
2.2.1 Fertilizer Consumption per Unit Area
2.2.2 Total Fertilizer Consumption

2.3 Maize
2.3.1 Fertilizer Consumption per Unit Area
2.3.2 Total Fertilizer Consumption

2.4 Other Cereal
2.4.1 Sorghum
2.4.1.1 Fertilizer Consumption per Unit Area
2.4.1.2 Total Fertilizer Consumption
2.4.2 Foxtail Millet
2.4.2.1 Fertilizer Consumption per Unit Area
2.4.2.2 Total Fertilizer Consumption

2.5 Potato
2.5.1 Fertilizer Consumption per Unit Area
2.5.2 Total Fertilizer Consumption

2.6 Soybean
2.6.1 Fertilizer Consumption per Unit Area
2.6.2 Total Fertilizer Consumption

2.7 Peanut
2.7.1 Fertilizer Consumption per Unit Area
2.7.2 Total Fertilizer Consumption

2.8 Rapeseed
2.8.1 Fertilizer Consumption per Unit Area
2.8.2 Total Fertilizer Consumption
2.9 Cotton
   2.9.1 Fertilizer Consumption per Unit Area
   2.9.2 Total Fertilizer Consumption

2.10 Sugar Crops
   2.10.1 Sugar Cane
      2.10.1.1 Fertilizer Consumption per Unit Area
      2.10.1.2 Total Fertilizer Consumption
   2.10.2 Sugar Beet
      2.10.2.1 Fertilizer Consumption per Unit Area
      2.10.2.2 Total Fertilizer Consumption

2.11 Tobacco
   2.11.1 Fertilizer Consumption per Unit Area
   2.11.2 Total Fertilizer Consumption

2.12 Vegetables
   2.12.1 Fertilizer Consumption per Unit Area
   2.12.2 Total Fertilizer Consumption

2.13 Fruits
   2.13.1 Fertilizer Consumption per Unit Area
   2.13.2 Total Fertilizer Consumption

2.14 Summary
   2.14.1 National Fertilizer Consumption by Crop
   2.14.2 National Compound Fertilizer Consumption by Crop
      2.14.2.1 National Complex Fertilizer Consumption by Crop
      2.14.2.2 National BB Fertilizer Consumption by Crop
   2.14.3 Total Fertilizer Consumption by Province
   2.14.4 Compound Fertilizer Consumption by Province
      2.14.4.1 Complex Fertilizer Consumption by Province
      2.14.4.2 BB Fertilizer Consumption by Province

Part Three  NPK Consumption by Crop in China, 2002-2016

3.1 Paddy

Add: Room 905, Jintai Golden Tower, No. 1, Xibahe South Road, Chaoyang District, Beijing, PRC 100028
Tel: 86-10-64402118   Fax: 86-10-64402039   Email: report.boabc@boabc.com   website: www.cnagri.com
3.1.1 Early Paddy
   3.1.1.1 NPK Consumption per Unit Area
   3.1.1.2 Total NPK Consumption
3.1.2 Single Cropping Paddy
   3.1.2.1 NPK Consumption per Unit Area
   3.1.2.2 Total NPK Consumption
3.1.3 Late Paddy
   3.1.3.1 NPK Consumption per Unit Area
   3.1.3.2 Total NPK Consumption

3.2 Wheat
   3.2.1 NPK Consumption per Unit Area
   3.2.2 Total NPK Consumption

3.3 Maize
   3.3.1 NPK Consumption per Unit Area
   3.3.2 Total NPK Consumption

3.4 Potato
   3.4.1 Urea Consumption per Unit Area
   3.4.2 Total Urea Consumption

3.5 Soybean
   3.5.1 NPK Consumption per Unit Area
   3.5.2 Total NPK Consumption

3.6 Peanut
   3.6.1 NPK Consumption per Unit Area
   3.6.2 Total NPK Consumption

3.7 Rapeseed
   3.7.1 NPK Consumption per Unit Area
   3.7.2 Total NPK Consumption

3.8 Cotton
   3.8.1 NPK Consumption per Unit Area
   3.8.2 Total NPK Consumption
3.9 Sugar Crops

3.9.1 Sugar Cane
   3.9.1.1 NPK Consumption per Unit Area
   3.9.1.2 Total NPK Consumption

3.9.2 Sugar Beet
   3.9.2.1 NPK Consumption per Unit Area
   3.9.2.2 Total NPK Consumption

3.10 Tobacco

3.10.1 NPK Consumption per Unit Area
3.10.2 Total NPK Consumption

3.11 Vegetables

3.11.1 NPK Consumption per Unit Area
3.11.2 Total NPK Consumption

3.12 Fruits

3.12.1 NPK Consumption per Unit Area
3.12.2 Total NPK Consumption

3.13 Summary

3.13.1 Total NPK Consumption by Crop
3.13.2 NPK Consumption by Province

Part Four DAP Consumption by Crop in China, 2002-2016

4.1 Paddy

4.1.1 Early Paddy
   4.1.1.1 DAP Consumption per Unit Area
   4.1.1.2 Total DAP Consumption

4.1.2 Single Cropping Paddy
   4.1.2.1 DAP Consumption per Unit Area
   4.1.2.2 Total DAP Consumption

4.1.3 Late Paddy
   4.1.3.1 DAP Consumption per Unit Area
   4.1.3.2 Total DAP Consumption
4.2 Wheat
  4.2.1 DAP Consumption per Unit Area
  4.2.2 Total DAP Consumption

4.3 Maize
  4.3.1 DAP Consumption per Unit Area
  4.3.2 Total DAP Consumption

4.4 Potato
  4.4.1 DAP Consumption per Unit Area
  4.4.2 Total DAP Consumption

4.5 Soybean
  4.5.1 DAP Consumption per Unit Area
  4.5.2 Total DAP Consumption

4.6 Peanut
  4.6.1 DAP Consumption per Unit Area
  4.6.2 Total DAP Consumption

4.7 Rapeseed
  4.7.1 DAP Consumption per Unit Area
  4.7.2 Total DAP Consumption

4.8 Cotton
  4.8.1 DAP Consumption per Unit Area
  4.8.2 Total DAP Consumption

4.9 Sugar Crops
  4.9.1 Sugar Cane
    4.9.1.1 DAP Consumption per Unit Area
    4.9.1.2 Total DAP Consumption
  4.9.2 Sugar Beet
    4.9.2.1 DAP Consumption per Unit Area
    4.9.2.2 Total DAP Consumption

4.10 Tobacco
  4.10.1 DAP Consumption per Unit Area
4.10.2 Total DAP Consumption

4.11 Vegetables
  4.11.1 DAP Consumption per Unit Area
  4.11.2 Total DAP Consumption

4.12 Fruits
  4.12.1 DAP Consumption per Unit Area
  4.12.2 Total DAP Consumption

4.13 Summary
  4.13.1 National DAP Consumption by Crop
  4.13.2 DAP Consumption by Province

Part Five Characteristics of China’s NPK Production and Price Changes in 2017

5.1 NPK Production Status in 2017
  5.1.1 NPK Enterprises Producing Capacity in 2017
  5.1.2 NPK Output in 2017
  5.1.3 NPK Producing Enterprises Operating Rate in 2017

5.2 Price Variation of NPK in 2017

Part Six Forecast on China’s NPK Supply-Demand and Price Changes Trend

6.1 Forecast on China's NPK Supply-Demand in 2018-2020
6.2 Forecast on China's NPK Price Changes in 2018-2020
